IDEAL MONTESSORI SCHOOL

KADAKASSERY

The Montessori Education

The children are the supreme asset and the most loving wealth of any nation. Montessori education is defined as the individual learning acquired through the personal liberty in a prepared environment. The Montessori environment makes learning an exciting process of discovery. Leading to better concentration, motivation, self discipline and love for learning. The Montessori is designed in such a manner that, the holistic development of children originates from themselves. Teachers give essential guidelines being merely the observers in the process of learning. Congenial environments are created enabling the children to develop their unique personalities in fullness, by empowering their inborn potentials.

VISION

Provide multiple learning environment with holistic system of education for the successful life of young generation.

MISSION

Provide quality education by preserving moral, social and spiritual values. Implement effective teaching methods by appointing outstanding faculties to mine out the skills and inner potentialities through regular training programmes for students, teachers and parents. Maintain proper infrastructure for suitable learning environment.

MONTESSORI CURRICULUM

1 Practical

By doing practical life activities, the child can develop a high level of concentration, a sense of order, take pride in completing a job, increase independence, develop respect for his or her community and surroundings, and improve fine motor skills.

Sensorial

2

Sensorial activities are used in Montessori learning to help children in discrimination and order. They also help broaden and refine a child's senses. When a Montessori designed materials combine with sensorial work, it helps them to become more logical, perceptive, and aware.

3 Language

Communication allows the child to express her needs and ideas to others. Through language we are able to cooperate, collaborate, receive knowledge and pass knowledge to others. Students use language materials to explore letters, sounds, handwriting, and eventually spelling and writing.

4 Mathematical

Montessori math materials help children approach math with hands-on, visual, and physical learning aids. These materials allow students to attain concrete knowledge to the often abstract concepts in math.

Cultural 5

Montessori cultural lessons expose children to different people and their cultures. These lessons include how people have adapted to different climates, their homes, clothing, food, and customs. Through continent and cultural studies, children learn about the interconnectedness of all life on earth.

Skill development

It is a vital tool to empower kids, to safeguard their future and for the overall development of an individual. It is an important aspect that enhances employability in today's globalisation. It's the abilities for adaptive & positive behavior that enable human beings to deal with every life challenge and situation effectively.

TEAMS & FOXA

PUSHING THE BOUNDARIES OF OFFLINE CLASS ROOMS TO ONLINE CLASS ROOMS

Ideal offers the best online education system for all idealities. Even when it is not possible for students to physically be at the campus, ideal team ensures the best education through online system. A well structured online education is a provided to the students through digital platforms like Microsoft teams, FOXA App etc..

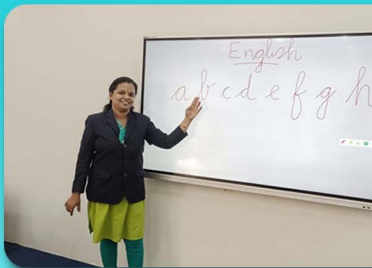

Students are provided with recorded classes of these subjects where instructors deliver the lessons using smart boards. Along with the recorded classes, live classes are also provided through an interactive App called Microsoft teams where students and teachers meet, discuss the topics online and clear the doubts. The live classes are scheduled for each subject. All recorded classes will be provided through foxa.

LEARNING THROUGH FOXA APP

FOXA is a web based learning app specifically designed to meet the learning requirements of the students. Using a user name and password provided to each student, one can access the app. In the app videos are arranged in chapter wise and topic wise along with notes and presentations which can be watched at any time, making ease of studies.
